Nonprofit home health provider [Senior Independence of Southwestern Pennsylvania](#) is adding hospice to its services after recently being licensed by the state. The service will be offered in Allegheny, Fayette, Indiana, Washington and Westmoreland counties.

Senior Independence was formed in 2010 by Greensburg-based Redstone Presbyterian SeniorCare and offers home care and smart home technology services, which allow seniors to stay in their home rather than at a skilled care facility. End of life care includes symptom management and coordinating various volunteer services to ensure the patient's comfort.
